

Maurice Turmel (AKA Dr Moe) has been involved with Spiritual and Personal Growth programs all of his adult life. While doing so he picked up a few degrees (BA, MA & PhD in Psychology) and worked as a Therapist for 25 years providing services to individuals, families and major corporations. Over the years he has absorbed hundreds of Self-Help and New Age Books and has written 4 books of his own: *The Voice - A Metaphor for Personal Development*; *Parables for a Modern Age Volumes 1 & 2*; and *Parables on Grief and Loss*. He has also created Inspirational Music in the "Rockin Blues" vein all in support of The Purpose Driven Life.

In terms of spiritual and personal growth, motivation, confidence building and prosperity creation, Dr Moe has experienced and applied many of the personal development practices and programs available since the early 70's. From these experiences, and his professional training, he has evolved a unique approach to spiritual and personal development which he calls "Conscious Evolution."

Today we are hearing more about Spiritual and Personal Growth, to address such questions as: Who am I? and Why am I? It is time, he believes, for the next stage of our Evolution - The Activation of "Self and Soul" within a Purpose Driven Life. This is Conscious Evolution as he defines it, and has been the substance of his Life's Work for the past 40 years.

Maurice has been writing and speaking on the subjects of Self-Help, Personal Growth, Creativity and Spiritual Connection since he began "Receiving" nearly 15 years ago. He has appeared on numerous television and radio talk shows and addressed audiences all over North America. Having recently joined Achieve Radio, Dr Moe is now broadcasting his views on a positive and uplifting talk show called "Rock My Soul Radio." The show's byline is "Connecting You with Your Source." It is a combination of Talk, Music, Stories, Poetry, Q & A and Guest Interviews all focussed on helping the listener open up to their natural feeling center - "The Heart!" Once connected an individual is able to unleash their Passion, connect with their Purpose and freely express their Creativity.
